CAREER Objective

Hello! I'm MD Sujon Islam, a passionate MERN stack developer with a focus on creating impactful, scalable web solutions. I specialize in building responsive applications using HTML5, CSS3, javascript, React.js and backend MongoDB, Express.js, Node.js and Firebase. I'm dedicated to writing modular, maintainable code, implementing RESTful APIs, and ensuring optimal performance and security. With a strong background in math, physics, and chemistry, I bring creative problem-solving skills to the table and thrive in collaborative, cross-functional teams.
